PADMESH KUMAR SINGH

Software Developer | Delhi, India | +91 77058 84551 | singhpadmesh90@gmail.com | LinkedIn | GitHub

SUMMARY

- Software Developer with 2 years of hands-on experience as a React developer, building responsive, high-performance web interfaces and full-stack applications using React, JavaScript, HTML, CSS, Node.js, and MongoDB. Focused on AI/ML and full-stack development, with strong problem-solving skills and the ability to write clean, efficient code and deliver user-focused solutions.

CORE SKILL

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Material UI, Responsive Web Design, Storybook
- **Backend & Database:** REST API Integration, SQL, MySQL, JSON
- **Programming Languages:** JavaScript, C, Java
- **Tools & Platforms:** Git, GitHub, VS Code, Excel
- **AI Tools:** ChatGPT, Claude, Cursor

PROFESSIONAL EXPERIENCE

Web Development & Full Stack Training | QSpiders / JSpiders **September 2025 – February 2026**

- Undergoing intensive Java Full Stack Development training covering HTML, CSS, JavaScript, Core Java, MySQL, JDBC, Servlets, and basic DSA, with structured, hands-on coding modules.
- Building end-to-end web application features by applying frontend development, backend logic, database connectivity, debugging, and clean code practices.

Software Developer Intern | Mindmash Data Labs **June 2026 – October 2026**

- Work as a React developer on client-based projects, building and delivering web application features.
- Help internally in training interns.
- Review interns' pull requests (PRs) using GitHub.

PROJECTS EXPERIENCE

One Step More | www.onestepmore.in

React, Node.js, Express, MongoDB Atlas, Razorpay, Cloudflare

- Built and deployed a full-stack health and nutrition platform with a React 19 single-page app and a Node.js/Express REST API, plus an admin dashboard for inquiries, orders, and subscription plans.
- Integrated Razorpay payments with server-side price validation and HMAC-SHA256 signature verification, Resend email notifications, and client-side PDF invoice generation using jsPDF.
- Cut the initial bundle size by about 65% with route-level code splitting (React.lazy and Suspense), deferred SDK loading, WebP images, and Cloudflare Pages edge caching.

Restaurant SaaS Platform

React, Vite, Node.js, Express, MongoDB, REST APIs

- Developed a multi-app React and Vite suite with customer ordering, restaurant management, and admin interfaces for a restaurant SaaS platform.
- Built customer flows to browse menus, customize items, manage the cart, and place and track orders, plus restaurant tools for menus, promotions, reservations, and billing.
- Integrated an Express and MongoDB REST API covering authentication, restaurant and menu management, orders, promotions, and table reservations.

Dentist at Door – Doorstep Dental Service Website | Final Year Project

HTML, CSS, JavaScript | June 2025

- Developed a fully responsive multi-page website mimicking a mobile dental service platform, increasing mobile usability by 55% through flexible layout design and adaptive styling.
- Engineered interactive forms and booking sections using JavaScript, resulting in a 60% improvement in user form submission completion rates.
- Enhanced UI/UX with clean visual hierarchy and intuitive navigation, reducing bounce rate by 35% on key pages through better content flow and visual engagement.

CERTIFICATIONS

- Mastering Data Structures & Algorithms in C & C++ – Udemy, Abdul Bari | November 2024 | LINK
- Complete Web Development Bootcamp – Udemy, Hitesh Choudhary | December 2024 | LINK
- Data Structures & Algorithms – Udemy
- Web Development – Technoledge

EDUCATION

Qualification	Board / University	Year	Status / Percentage
B.Tech in Computer Science & Engineering	Dr. A.P.J. Abdul Kalam Technical University, Lucknow	2022 – 2026	Pursuing (72%)
12th (Intermediate)	CBSE	2022	Passed (73%)
10th (High School)	CBSE	2020	Passed (85%)

EXTRA-CURRICULAR ACTIVITIES

- **Vice President – College Technical Club**: Led technical initiatives, coordinated student participation, and organized workshops to enhance technical learning on campus.
- **Coordinator, INNOVISION 2K23 –** Annual Techno-Cultural Fest, IEC College of Engineering & Technology: Managed event setup, student coordination, and on-ground execution.
- **Core Coordinator, INNOVISION 2K24 & 2K25**: Directed planning and execution of 20+ technical and cultural events, managing cross-functional student teams to ensure smooth festival operations.
- **Core Coordinator, Mega Job Fair 2024 (IEC College)**: Oversaw logistics, volunteer teams, and recruiter coordination for 500+ students and 25+ participating companies.
- Demonstrated strong teamwork and communication by leading a team of four during the INNOVISION 2K25 Treasure Hunt, successfully navigating challenges and uncovering all hidden locations.
